... Continued

- 1.01.15 The '4-Flag System' will be used by the Refereeing Panel for all categories of Shobu Ippon Kumite. This system involves a Central Referee, 4 corner Judges, and the Kansa (Judge as a match supervisor near table officials; seated on the right-hand side of the starting position of the Central Referee).
- 1.01.16 Coaches (in uniform, not in Karate-Gi) of competitors will sit facing the table officials however, taking videos or interrupting fights is prohibited.
- 1.01.17 The 15 seconds signal (by a gong, buzzer, or whistle) before bout ends, referred to as Atoshi Baraku, will be announced during all bouts in all categories of Shobu Ippon Individual and Team kumite.
- 1.01.18 Both Individual and Team Kumite Categories are divided into two: (a) Females and (b) Males.
- 1.01.19 The duration of a bout is 2 minutes running time, in which case the clock is stopped only when the Central Referee announces 'Time'.
- 1.01.20 Individual categories are divided by age and weight.
- 1.01.21 Team categories are divided by age.

1.02 Starting and finishing a Category

- 1.02.1 It is very important that every coach knows what happens at the start and end of every category to prepare competitors prior a competition. This helps in reducing unnecessary stress and that feeling of 'being lost'.
- 1.02.2 The Start of a Category:
- (a) All competitors are called and lined up by a member of the Refereeing Panel. Name tags are collected and checked.
 - (b) Any competitor who is not present on the tatami area will be called twice on the microphone. If there is still no sign of the competitor towards the end of the round, competitor will be declared KIKEN (renunciation).
 - (c) Once lined up, all competitors are checked for any irregularities (jewelry, piercings, metal hair clips, long nails, long trousers, rolled up sleeves, bandages, etc.) by members of the Refereeing Panel. If presentation does not conform to the rules, competitor is given 1 minute to redress.
 - (d) Members of the Refereeing Panel line up facing competitors.
 - (e) Central Referee announces *Shomen ni Rei, and Refereeing Panel together with competitors on the tatami turn to bow towards main table (front).
 - (f) Central Referee makes the second announcement of **Otogai ni Rei, where members of the Refereeing Panel together with competitors resume their original position and bow towards each other.
 - (g) Central Referee takes one step back; Refereeing Panel turns towards him/ her, and they exchange bows.
 - (h) Members of the Refereeing Panel proceed to their positions on the tatami, while competitors break their line and sit down.

... Continued

- (i) The Central Referee, Kansa, and all 4 Judges find their places, and the first two competitors are called. Colour of belt (Aka/ Shiro) is called first, followed by the name of the competitor. Aka is always positioned on the right-hand side of the Central Referee.
- (j) Coaches' name tags are collected by a member of the Refereeing Panel prior start of each bout and handed back after. The coaches sit facing the Central Referee and table officials.

1.02.3 The End of a Category

- (a) On completion of every category, competitors are asked to line up and winners are announced. On being called, winners step forward and bow.
- (b) After all winners have been announced, the bowing ceremony at the end of the category initiates with the announcement of Otogai ni Rei and all competitors bow towards Refereeing Panel. The second announcement is Shomen ni Rei, where everyone turns and bows towards the main table.
- (c) Refereeing Panel exchange bows once again as per 1.02.2 (g).
- (d) Name tags are redistributed, and winners are ushered to the podium for medals.

**Shomen ni Rei – meaning 'face front', everybody bows to the front, showing respect to Tradition and History.*

***Otogai ni Rei – meaning 'bow to others', showing respect to all.*

1.03 Starting and Finishing a Bout

1.03.1 The Start of a bout:

- a) *When the Central Referee announces "Aka/ Shiro – Nakae", the Central Referee, and the 2 competitors enter the tatami.*
- b) *After the Central Referee ensures that all 4 Judges, both competitors, table officials, and Kansa are all prepared, he/ she announces "Shobu Ippon - Hajime", and the two competitors initiate the fight. At this instant, one of the table officials (timekeeper) starts the stopwatch.*
- c) *When the Central Referee calls "Yame" (Stop), the two competitors stop their fight and resume to their original position, but the Timekeeper does not stop the clock.*
- d) *On the command of "Tsuzukete Hajime" (Resume fighting), both competitors are expected to resume fighting. Atoshi Baraku will be announced 15 seconds before bout ends.*

1.03.2 The end of a bout:

- (a) When time is up, or when a total score of 1 IPPON is reached, command given is "Yame". This command is followed by another command of "Soremade" (End of fight), after which, the Central Referee moves towards the Kansa to verify the scores and announce the decision taken.

... Continued

- (b) The winner is announced by colour: Aka/ Shiro “No Kachi”, and both competitors bow towards Referee and towards each other before exiting the area, while coaches collect their name tags.

1.04 Flags, Ties, and Criteria

1.04.1 Showing of Flags during a bout:

- (i) 1 flag raised in favour for Aka or Shiro – point is not given.
- (ii) 2 flags raised in favour for Aka or Shiro – points are given if Referee supports the same decision, otherwise, Referee consults the 2 Judges and asks for their final decision. - (i) If 2 flags are raised in favour of Aka and 2 flags are raised in favour of Shiro, the Central Referee announces his/ her decision as either ‘Aka no kachi’, ‘Shiro no kachi’, or ‘Hikiwake’ (Draw).
- (ii) In the case that the Central Referee announces Hikiwake, competitors must fight again, and Referee announces ‘Sai Shiai’. In this 2-minute rematch, warnings/ penalties are not carried forward.

- (a) Effective Jodan Geri techniques (contact is not a must, however, maximum distance from face; for points to be awarded; must be at least 2 inches).
 - (b) Effective attacks delivered on the undefended scoring areas with delayed or no reaction from opponent.
 - (c) Effective attacks delivered on opponents who turned their back to their attackers. If technique lacks any of the mentioned criteria, it will not be awarded an Ippon. If technique is too weak, it may not be scored at all.
 - (d) When a combination of effective consecutive techniques is delivered on opponent (that is, if each technique on its own would have merited a waza-ari).
